DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3-12, 15, and 16, drawn to a peptide based compound and its method of use in the prevention and treatment of allergies, classified in class 424, subclass 185.1.
 - II. Claims 2, and 8, drawn to nucleic acid based compound encoding antigens, classified in class 435, subclass 320.1.

Applicant is advised that where a single claim encompasses more than one invention as defined above, upon election of an invention for examination, said claim will only be examined to the extent that it reads upon the elected invention.

2. The inventions are distinct, each from the other because of the following reasons:

The inventions of groups I-II are drawn to materially different physical and chemical properties, structures, and methods of use. For example, the invention of group I is drawn to a peptide based vaccine for the prevention and treatment of allergies, while the invention of group II is drawn to a DNA vaccine for the prevention and treatment of allergies. The structure, function, and utilities of vaccine of group I are different from those of group II, wherein peptide vaccines elicit humoral responses while DNA vaccines elicit humoral and cytolytic responses.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their divergent classifications, recognized divergent subject matter and further because the searches required for the different inventions are not coextensive, restriction for examination purposes as indicated is proper.

Art Unit: 1633

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
